By contributing \$500 or more each year, the organization will associate a specific child with you and your family. We will share this child's progress with you and show how you are making a difference in the world one child at a time. Your annual contributions of \$1000 or more will help us support our humanitarian health program so we can continue to create an environment where these children can learn and apply basic health principles. We will also use your donations to buy medications, vitamins, and medical and dental supplies that our (volunteer) clinicians need to treat immediate health and dental problems that these children have. Each donor will receive periodic updates and news that reflect the impact that their contribution is making in the lives of these children and their communities.
